

“A Sibling Story”

Every now and again we are given the unique perspective of a story through the eyes of someone who lived it differently. A sibling is a wonderful gift to any person, someone to learn from, play with, seek advise of and cherish memories together. A person who's sibling has a special need– that person has challenges dealt to them too. But they also have opportunities to experience a world that no one else often gets to see. Watching his sister defy the odds and live a purposeful life catapulted Phillip in a compassionate and extraordinary way to help others. This is the story of success for the both of them.

With Phillip Clark
